

**DESCRIPTION**

This activity will provide a comprehensive overview of the surgical management of complex genitourinary (GU) cases with real-time discussion and live surgical cases performed by international leaders in the field. It will also include sessions covering various urologic topics, including GU reconstruction, men's health, and cancer survivorship. It will improve the ability of healthcare professionals to provide improved urological outcomes to their patients.

**TARGET AUDIENCE**

This activity is designed for urologists, trainees, advanced practice providers, and other healthcare professionals providing urological care to their patients.

**LEARNING OBJECTIVES**

After this activity, participants will be able to:

- Identify how to evaluate and manage surgical techniques of complex GU reconstructive cases;
- Discuss the latest evidence-based surgical techniques based on research and best-practice standards;
- Describe different urologic conditions, including erectile dysfunction, Peyronie's disease, and male incontinence;
- Recall the steps necessary to start a successful cancer survivorship program.

**ACCREDITATION AND CREDIT DESIGNATION****Physician Credit**

The University of Chicago Pritzker School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Chicago Pritzker School of Medicine designates this live activity for a maximum of 9 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Other Healthcare Professional Credit**

Other healthcare professionals will receive a Certificate of Participation. For information on the applicability and acceptance of Certificates of Participation for educational activities certified for *AMA PRA Category 1 Credit*<sup>™</sup> from organizations accredited by the ACCME, please consult your professional licensing board.

**EDUCATIONAL GRANTS/COMMERCIAL SUPPORT**

This CME certified activity has not requested or received any support or funding from ineligible entities. This includes, but is not limited to, pharmaceutical companies and medical device manufacturers.

## **DISCLOSURE DECLARATIONS**

As a provider accredited by the ACCME, The University of Chicago Pritzker School of Medicine asks everyone in a position to control the content of an education activity to disclose all financial relationships with any ineligible companies. This includes any entity whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. Financial relationships are relevant if a financial relationship, in any amount, exists between the person in control of content and an ineligible company during the past 24 months, and the content of the education is related to the products of an ineligible company with whom the person has a financial relationship. Mechanisms are in place to identify and mitigate any relevant financial relationships prior to the start of the activity.

Additionally, The University of Chicago Pritzker School of Medicine requires Authors to identify investigational products or off-label uses of products regulated by the US Food and Drug Administration at first mention and where appropriate in the content.

## **COURSE FACULTY**

**The following individuals have no relevant financial relationships with ineligible companies to disclose:**

Javier Belinky, MD

Paul Perito, MD, FACS

Ajay Singla, MD

Ana Gomez, MD

Sherif Mourad, MD, FACS

Amy Siston, PhD

John Mulhall, MD, FACS

Omer Raheem, MD, MSc

Ted Skolarus, MD, FACS

Carlo Bettocchi, MD has served as a consultant for Boston and Coloplast.

Robert Brannigan, MD has received research funding from Ferring.

Rafael Carrion, MD has served as a consultant for Coloplast, Boston Scientific, and Rigicon.

## **DISCLAIMER**

The views expressed in this activity are those of the individual speaker. It should not be inferred or assumed that they are expressing the views of any pharmaceutical or product/device manufacturer, provider of commercial services, or The University of Chicago. The drug selection and dosage information presented in this activity are believed to be accurate. However, participants are urged to consult the full prescribing information on any agent(s) presented in this activity for recommended dosage, indications, contraindications, warnings, precautions, and adverse effects before prescribing any medication. This is particularly important when a drug is new or infrequently prescribed.
